The Journal of Neurology and Psychopathology

VOLUME XII, 1931-32

INDEX.

INDEX.

A.

Ability and handedness (M. O. Wilson and L. B. Dolan), 267
Acoustic tumours. *See* Tumours
ADLER, ALFRED: *The Pattern of Life*, review, 96
ADSON, A. W.: Roentgenologic findings associated with tumours in the spinal canal, 263
Alcohol, effects of on the fertility of animals and their offspring, 255
Alcoholic psychosis, results of applying uroctropin in some cases of (L. M. Katzman), 280
Alcoholist, the psychology of the (A. E. Carver), 175
ALDRICH, CHARLES R.: *The Primitive Mind and Modern Civilization*, review, 88
ALEXANDER, F.: Schizophrenic psychoses. Critical considerations of the psychoanalytic treatment, 280
Alkaline reserve in the blood of epileptics. *See* Epileptics
ALLEN, I. M.: The dissociation of voluntary and emotional movements of the face with special reference to emotional paresis as a physical sign, 24
ALPERS, B. J.: Origin and development of giant-cells in gliomas, 70—The oligodendrogliomas, 161—Diffuse progressive degeneration of the grey matter of the cerebrum, 252—Post-encephalitic Parkinsonism with psychoses, 272
Amaurotic idiocy. *See* Idiocy
Anæmia, pernicious, mental disorders associated with (Norman R. Phillips), 276
Anæmia, pernicious, neurologic complications of (William Needles), 168
Anaërobic infections of the major and minor psychoses, pathogenesis of (W. M. Ford-Robertson), 355
Anæsthetic, surgical, for neurological operations, 'dial' as a (J. F. Fulton, E. G. T. Liddell, and D. M. Rioch), 171
Aneurysm, cerebral, and cortical herniation (J. J. Keegan and A. E. Bennett), 252
Animals and their offspring, effects of alcohol on the fertility of, 255
Aphasia, crossed (L. de Lisi), 347
Aphasia, motor, the phenomena of relearning in (G. G. Morselli), 257
APPEL, KENNETH E. (and EARL D. BOND): *The Treatment of Behaviour Disorders following Encephalitis*, review, 187
Arachnoid, the spinal (I. B. Diamond), 244
Arachnoiditis adhæsiva circumscripta (B. Brouwer), 347
ASHBY, W. R.: The 'path' theory of cortical function, 148
Asymbolia for pain (P. Schilder and E. Stengel), 257
Ataxia of Leyden, acute (L. van Bogaert), 351
Aural sepsis. *See* Sepsis

B.

BAARN, FREDERIKSE: *The Lizard's Brain*, review, 371
BADT, B.: Report on 57 undiagnosed brain tumours, 346
BARBASH, H.: The glucose tolerance curve in epilepsy, 73
BARUK, H. (and H. DE JONG): *La Catatonie Expérimentale par la Bulbocapnine*, review, 92
BASTIAANSE, F. S.: Post-vaccinal encephalomyelitis in Holland, 166
BAUM, HANS: Contribution to the differential diagnosis of epileptic disorders, 77
Behaviour problems in children, some principles in the treatment of (L. G. Lowrey), 280
Behaviour problems in relation to family constellation (John Levy), 80
BELLONI, G. B.: Malaria-therapy in schizophrenic conditions, 182
BENDER, LAURETTA (and PAUL SCHILDER): Unconditioned and conditioned reactions to pain in schizophrenia, 81
BENELLI, R.: Hemiparesis with extrapyramidal dystonia due to a wound of the cervical medulla, 262
BENNETT, A. E.: Cerebral aneurysm and cortical herniation, 252
BERGSMA, S.: Meralgia paræsthetica, 79
BERLUCCHI, C.: Histological picture of the corpus striatum in persons dead of various diseases, 344—Chronic hallucinatory psychosis, 356
BERRY, RICHARD J. A. (and R. G. GORDON): *The Mental Defective: A Problem in Social Inefficiency*, review, 184
BING, ROBERT: *Lehrbuch der Nervenkrankheiten*, review, 286
BIZE, P. R.: *Hydrocéphalie Ventriculaire*, review, 370
BLALOCK, JOSEPH R.: Treatment of general paralysis, 360
BLANCHARD, ELSIE: Clinical findings in "recovered" cases of schizophrenia, 361
BLANTON, SMILEY: Stuttering, 175
BLEULER, EUGEN: *Mechanismus: Vitalismus: Mnemismus*, review, 363
Blood, brain, studies of the biochemistry of, by internal jugular puncture (Abraham Myerson and Roy D. Halloran), 162
Blood cholesterol, effect of thyroid administration on (A. Glen Duncan), 172
Blood and urine in dementia præcox after giving hyoscine, aromatic substances in the (G. G. Noto), 269
Blood and urine in dementia præcox, calcium in (S. Gullotta), 269
Blood flow to limb arrested, causing centripetal paralysis (Thomas Lewis, G. W. Pickering, and P. Rothschild), 250
Blood sugar studies in abnormal mental states (P. K. McCowan and J. H. Quastel), 275
BOLSI, D.: Reactions of the microglia and neuroglia to X-rays and radium, 253
Boltz acetic anhydride test, further results with (J. Ernest Nicole and E. J. Fitzgerald), 165
BOND, EARL D. (and KENNETH E. APPEL): *The Treatment of Behaviour Disorders following Encephalitis*, review, 187
BOSCH, HANS: Deafness in trichinosis, 78
Boston Psychopathic Hospital: Study of one hundred cases discharged 'against advice' in 1925 (Jacob Kasanin and Esther C. Cook), 281
BOWMAN, KARL M.: A statistical study of delusions in the manic-depressive psychoses, 177
Brachium conjunctivum and the tractus spino-thalamicus, syndrome of the (C. K. Russel), 262
Brain blood, studies of the biochemistry of, by jugular puncture (Abraham Myerson and Roy D. Halloran), 162
Brain, 'end-arteries' of, and the mechanism of infarction (Stanley Cobb), 71
Brain tumour. *See* Tumour
BREGMAN, L. E.: Curable forms of purulent meningitis of traumatic origin, 79
BRICKNER, R. M.: Certain characteristics of the cortical influence over the sympathetic nervous system in man, 69—Physiological differences between generic and individually acquired automatic associated movements, 246

Bromide, ratios of distribution of in manic-depressive psychosis (D. Rothschild and W. Malamud), 269
Bromide test in mental diseases, diagnostic value of (Salomon Katzenelbogen and Harry Goldsmith), 274
BROUWER, B.: Arachnoiditis adhæsiva circumscripta, 347
BROWN, W. G. SCOTT: Three fatal cases of the bulbar type of poliomyelitis, 309 (U. de Giacomo), 178—(R. L. Worrall), 329
BRUCH, A.: The reflexes of the sinus caroticus in epilepsy, 259
Bulbocapnin, researches on the action of in man (U. de Giacomo), 178—(R. L. Worrall), 329
BURGER-PRINZ, HANS: *Die Beginnende Paralyse*, review, 94
BUSCAINO, V. M.: Experimental catatonia in animals and man, 178

C.

Calcium in the blood and the urine in dementia præcox (S. Gullotta), 269
Calcium distribution between blood and cerebrospinal fluid in mental diseases (Salomon Katzenelbogen and Harry Goldsmith), 275
Calcium, ratios of distribution of in manic-depressive psychosis (D. Rothschild and W. Malamud), 269
CAMERON, D. EWEN: The dehydration method in epilepsy, 265
CAMP, J. D.: Rontgenologic findings associated with tumours in the spinal canal, 263
CANAVAN, M. M.: Schilder's encephalitis periaxialis diffusa, 74
Carbon dioxide and oxygen inhalation, and intravenous sodium amytal, effects of on certain neuropsychiatric conditions (H. C. Solomon, M. R. Kaufman, and F. D. Elseaux), 181
Cardiac disease, mental changes in (Alexander George Gibson), 85
Carotid sinus in neuropathology, reflexes of the (G. Marinesco and A. Kreindler), 164—In epilepsy (G. Marinesco, A. Kreindler and A. Bruch), 259
CARVER, A. E.: The psychology of the alcoholist, 175
Castration reaction in males (Nolan D. C. Lewis), 86
Catatonia, experimental, in animals and man (V. M. Buscaino), 178
Catatonia, experimental hormonal (H. de Jong), 179
CAVE, H. A.: Narcolepsy, 261
Cellular oxidation. *See* Oxidation
Centripetal paralysis. *See* Paralysis
Cerebral aneurysm and cortical herniation (J. J. Keegan and A. E. Bennett), 252
Cerebral birth conditions, with special reference to cerebral diplegia (C. A. Patten), 254
Cerebral gummata, structure and histogenesis of (G. Zanetti), 71
Cerebral ventricles. *See* Ventricles
Cerebral vessels, the elastic layer in the (C. R. Tuthill), 161
Cerebrospinal fluid, a flocculation test for (David Prentice), 238
Cerebrospinal fluid, the organic acids of the (R. H. Hurst), 84
Cerebrum, diffuse progressive degeneration of the gray matter of the (B. J. Alpers), 252
Charcot's disease, disorders of sensation in (Austregesilo Filho), 352
CHAVANY, J. A. (and A. ZIMMERN): *Diagnostic et Thérapeutique Électro-radiologiques des Maladies du Système Nerveux*, review, 95
Chickenpox accompanied by nonsuppurative encephalomyelitis (H. M. Zimmerman and H. Yannet), 167
CHILDERS, A. T.: A study of some schizoid children, 176
Chlorides, ratios of distribution of in manic-depressive psychosis (D. Rothschild and W. Malamud), 269
Cholesterol, blood, effect of thyroid administration on the (A. Glen Duncan), 172
Cholesterol in cellular oxidation, significance of, and its bearing on mental disorder (B. H. Shaw and J. S. Sharpe), 83
Chorea of Henoch-Bergeron, electric, myoclonias of (L. van Bogaert and J. Sweerts), 349
Choreic movement, localization and pathophysiology of the (F. E. Posthumus Meyjes), 349
Choreiform dyskinesia, diagnosis of (M. I. Jogichess), 76
CLAUDE, HENRI: *Maladies du Système Nerveux*, review, 365
Clonic contractions induced by stimulation of the spinal medulla at different levels (A. Rizzolo), 249
COBB, STANLEY: The question of 'end-arteries' of the brain and the mechanism of infarction, 71
COENEN, L.: Encephalitis periaxialis diffusa: Schilder-Foix disease, 73
Colours, primary, in what sense can we speak of? (James Drever), 266
Compulsory disease. *See* Disease
CONTE, E.: Reactions of the microglia and neuroglia to X-rays and radium, 253
Convulsions, hyperventilation experiments in patients with (Mogens Fog and Max Schmidt), 14
COOK, ESTHER C.: Study of one hundred cases discharged 'against advice' from the Boston Psychopathic Hospital in 1925, 281
Corpus callosum of the type described by Marchiafava, case of primary degeneration of (F. Guccione), 71
Contralateral flexor reflex, rebound phenomena, co-contraction and reciprocal innervation in spinal and decerebrate cats (S. W. Ranson and J. C. Hinsey), 161
Corpus striatum in persons dead of various diseases, histological picture of (C. Berlucchi), 344
Cortex, development of, and the functions of its layers (C. U. Ariens Kappers), 341
Cortical function, the 'path' theory of (W. R. Ashby), 148
Cortical herniation and cerebral aneurysm (J. J. Keegan and A. E. Bennett), 252
Cortical influence over the sympathetic nervous system in man, certain characteristics of (R. M. Brickner), 69
COURVILLE, C. B.: Ganglioglomas, 70
Cowper, the English poet, case of (J. H. Lloyd), 279
COX, L. P.: Origin of Sluder's or spheno-palatine neuralgia, 350
Cramp neurosis, Wernicke's (J. Wilder), 354
Cranial venous sinuses, anatomic variations of (E. A. Edwards), 342
Crime and insanity in India (G. R. Parasuram), 275
Crime, malingering in persons accused of (A. Myerson), 277
CROOKSHANK, F. G.: *Individual Sexual Problems*, review, 372
CULPIN, MILLAIS: *Recent Advances in the Study of the Psychoneuroses*, review, 185
CURRAN, FRANK J.: Pseudosclerosis of Strümpell-Westphal, 320
Cutaneous senses in spatial perceptions, the rôle played by the, (W. Malamud and W. J. Nygard), 265
Cytology of the spinal fluid in general paralysis and its variations after malaria—therapy studied with vital colorisation (C. Ugurgieri), 180

D

Davidenkoff's hormetonia. *See* Hormetonia
DAVIS, LOYAL: The effect of injections of iodized oil in the spinal subarachnoid space, 165
Deafness in trichinosis (Hans Bosch), 78
DE GIACOMO, U.: A very rare type of alternating paralysis, 77—Researches on the action of bulbocapnin in man, 178

Dehydration method in epilepsy (D. Ewen Cameron), 265
DE JONG, H. (and H. BARUK): *La Catatonie Expérimentale par la Bulbocapnine*, review, 92—Experimental hormonal catatonia, 179
DE LISI, L.: Crossed aphasia, 347
Delusions in the manic-depressive psychoses, a statistical study of (Karl M. Bowman and Alice F. Raymond), 177
Dementia præcox; aromatic substances in the blood and urine in, after giving hyoscine (G. G. Noto), 269
Dementia præcox, calcium in the blood and urine in (S. Gullotta), 269
Dementia præcox, the thyroid factor in (R. G. Hoskins and Francis H. Sheeper), 81
Dementia præcox-schizophrenia problem (James V. May), 354
Dementia præcox. *See also* Schizophrenia
DENGL, HANS: Severe case of lightning-shock with favourable outcome, 78
DENJEAN, H. (and M. DIDE): Plaque of tuberculous meningitis in the region of the tuber cinereum, with the syndrome of the tuber cinereum, 75
Depersonalization, psychoanalytic conception of (S. Morgenstern), 277
Diabetes insipidus, experimental, histopathology of (F. J. Warner), 253
Dial as a surgical anæsthetic for neurological operations (J. F. Fulton, E. G. T. Liddell, and D. M. Rioch), 171
DIAMOND, I. B.: The spinal arachnoid, 244
DIDE, M. (and H. DENJEAN): A plaque of tuberculous meningitis in the region of the tuber cinereum with the syndrome of the tuber cinereum, 75
Diplegia, cerebral, cerebral birth conditions and (C. A. Patten), 254
Direct stimulation of red nucleus. *See* Red
DI RENZO, F.: Behaviour of the alkaline reserve in the blood and the urinary pH value in epileptics in the interval period and during the convulsive crisis, 251
Disease, compulsory, psychology of (W. Stekel), 353
Disseminated sclerosis. *See* Sclerosis
DOLAN, L. B.: Handedness and ability, 267
DOBUZKOV, T.: A case of Davidenkoff's 'hormostonia' after an extravasation into the cerebral ventricles, 75
Dreams and their relationship to recent impressions (W. Malamud and F. E. Linder), 268
Dress, the emotional value of (J. C. Flugel), 173
DREVER, JAMES: In what sense can we speak of primary colours? 256
Drivers, reckless, and speeders; handedness and eyedness of (C. Quinan), 279
DUNCAN, A. GLEN: Effect of thyroid administration on the blood cholesterol, 172
DUNCAN, DONALD: The Marchi method, 73
Dyskinesia, choreiform, diagnosis of (M. I. Jogichess), 76
Dystonia, extrapyramidal, hemiparesis with, due to a wound of the cervical medulla (R. Benelli and P. Franceschini), 262
Dystonia lenticularis [Torsion-spasm] (Hugh G. Garland), 193
Dystonia, progressive, of posture (U. Poppi), 263

E.

EAGER, R.: Recurrent ocular paralysis, 332
ECONOMO, C. VON: *Encephalitis Lethargica; its Sequelæ and Treatment*, review, 95
EDWARDS, E. A.: Anatomic variations of the cranial venous sinuses, 342
Eidetic imagery (Emanuel Miller), 1
Elastic layer in the cerebral vessels (C. R. Tuthill), 161
ELSEAUX, F. D.: Some effects of the inhalation of carbon dioxide and oxygen, and intravenous sodium amytal, on certain neuropsychiatric conditions, 181
EMMA, M.: Contribution to the knowledge of the fine structure of the region of the substantia nigra, 69—Contribution to the knowledge of the histopathology of the substantia nigra, 254
Emotion, biochemical changes during (H. Jankowska), 84
Emotional value of dress (J. C. Flugel), 173
Encephantis periaxialis diffusa, Schilder's (M. M. Canavan), 74
Encephalitis periaxialis diffusa: Schilder-Foix disease (L. Coenen and Leon Mir), 73
Encephalographic studies in cryptogenic epilepsy (J. Notkin), 259
Encephalomyelitis, nonsuppurative, accompanying chickenpox (H. M. Zimmerman and H. Yannet), 167
Encephalomyelitis, post-vaccinal, in Holland (F. S. Bastiaanse), 166
'End-arteries' of the brain. *See* Brain
Ependyma, affections of the, and their pathogenesis (P. Redaelli), 163
Ependymitis, anatomico-pathological observations on (P. Redaelli), 344
Epilepsy, affect-, and hystero-epilepsy (J. Notkin), 259
Epilepsy, cryptogenic, encephalographic studies in (J. Notkin), 259
Epilepsy, dehydration method in (D. Ewen Cameron), 265
Epilepsy, genuine (D. M. Oxlon), 260
Epilepsy, glucose tolerance curve in (G. W. J. Mackay and H. Barbash), 73
Epilepsy, hystero-, and affect-epilepsy (J. Notkin) 259
Epilepsy, reflexes of the sinus caroticus in (G. Marinesco, A. Kreindler, and A. Bruch), 259
Epilepsy, traumatic, radical treatment of (Wilder Penfield) 168
Epileptic cases, chirurgico-therapeutic experiences with (L. Guttmann), 169
Epileptic disorders, differential diagnosis of (Hans Baum), 77
Epileptic persons, induction of sleep in (J. Rosett), 264
Epileptic seizures; the relation of time of day, sleep and other factors to the incidence of (Frederick L. Patry), 258
Epileptics: Behaviour of the alkaline reserve of the blood and the urinary pH value in epileptics in the interval period and during the convulsive crisis (F. di Renzo), 251
EPSTEIN, B.: Effects of local freezing of the central nervous system of a cat, 343
Erection and neuro-hypophyseal substance (G. Rosenda), 173
ERICKSON, MILTON H. (and R. G. HOSKINS): Grading of patients in mental hospitals as a therapeutic measure, 282
Erythræmia [polycythæmia] with a psychosis (Max Levin), 271
EWEN, JOHN H.: Psychological estimation of the effects of certain drugs upon the syntonic and schizophrenic psychoses, 356
Extrapyramidal central mechanisms, 158
Extrapyramidal dystonia with hemiparesis, due to a wound of the cervical medulla (R. Benelli and P. Franceschini), 262
Extrapyramidal syndromes, biological significance of, apropos a case of Wilson's disease in the adult (R. Mourgue), 97
Eyedness and handedness of speeders and reckless drivers (C. Quinan), 279

F.

Face, dissociation of voluntary and emotional movements of (I. M. Allen), 24
FARRAR, C. B.: Menopause and psychosis, 272
FEIGENBAUM, D.: Paranoia and magic, 273
FERRARO, A.: The origin and formation of senile plaques, 163
Fever, production of, by sulphur (R. P. Mackay), 352

FILHO, AUSTREGESILO: Disorders of sensation in Charcot's disease, 352
Finger nails. *See* Nails
FITZGERALD, E. J.: Further results with the Boltz acetic anhydride test, 165—Sero-diagnosis of syphilis in mental hospital practice, 345
FLEMING, G. W. T. H.: Some aspects of the leucocyte associated with mental disorder, 359
Flexor reflex. *See* Reflex
Flocculation test for cerebrospinal fluid (David Prentice), 238
FLUGEL, J. C.: The emotional value of dress, 173
Focal sepsis. *See* Sepsis
FOG, MOGENS: Hyperventilation experiments during CO_2 and O_2 inhalations in patients with convulsions, 14
